When we travel or move about our own environment, certain things we see affect us in deep and lasting ways.

What and How, we see...

Frank Cunha III, AIA
Cubellis Ecoplan

tours the Villa Rotunda in Italy. After getting lost and hiking over mountains and through corn fields to get there -- we found the gates locked.

R. Terry Durden, AIA
42D Architects

Taos, N.M. Pueblo home -- adobe is prepared of earth, stone, and water mixed and sun-dried. The walls define the compartments inside. Europeans introduced the concept of doors. Previously, the only entrance was by way of a ladder through the roof. These homes, still occupied today, are perfect examples of 'green architecture.' This site has been continuously occupied for more than 1000 years.

Joel Ives, AIA, PP
The Ives, Schier & Lesser Architecture Studios LLC

The twists and folds of the forms which you walk through on the roof present exciting surprises, vistas splending up to roof top amphitheaters and a roof garden at the Disney Concert Hall in Los Angeles.

Teddy Kaplan, AIA
Kaplan & Associates

I'm getting ready for a closing this week so I'm stressed out to the max, my inspiration is above.

Bobby Kaplan, AIA
Kaplan & Associates

...yes these are my primal images, it doesn't get any sexier than this, architecturally speaking.
I have been eagerly awaiting this issue of the Leagueline. I love the opportunity to have a peak into the lives of our members with submissions from so many of you. I hope you take the opportunity to participate every year!

What and How, we see...

What a terrific summer we have been having at the League events! In June, we enjoyed a delicious beachfront dinner at the Ridgewood Library Society, renovation design by Russ Maline, AIA. Our program was on Starting and Financing your Practice. In July, we visited the Closter Library addition designed by Anthony Iovino, AIA. Our program was on developing staff to fulfill the roles you expect of them, and grooming them to move up to more senior positions as well. We ended our summer events with a golf outing at High Mountain Golf Club. The weather could not have been more glorious, the course was challenging (well, all golf courses are challenging to me!), and the dinner was delicious and enjoyable. Congratualtions to all of our prize winners and thanks to our sponsors. Terrific job, Jim Y. Shafter AIA!

This past spring, AIA National implemented some new procedures for accrediting AIA Continuing Education Programs. The new regulations require additional pre-certification of our speakers and inclusion of AIA slides in the presentations. This process requires quite a bit more preparation and coordination on the part of Russ Warran, AIA, our continuing education liaison with National. Russ immediately became familiar with the new regulations and contacted each of the speakers scheduled to provide programs this year to bring their presentations into compliance. In addition, he went out of his way to assist the Programs and Events Committee with gaining credits for a tour and a program under critical time constraints in June. Thank you for your outstanding efforts Russ!

Joe Sarra, AIA, new BOT member this year, has been expertly managing our e-mail records and lists since January. His response to the large variety of requests for assistance he gets from many of the board members and staff and messages, receive responses, issue signs, e-fax and provide us with data contact information is always timely and endlessly supportive. If you are not receiving an e-mail from Joe on a monthly basis or more often, please contact him immediately to update your information. We all benefit from your commitment to the League Joe! Thank You!

A special welcome to new BOT members: Donna Bedard, Associate AIA, Joe Donato, AIA and Bill Lee, AIA. All three volunteered after our request for new members in June. Donna will be working as the League representative to the Newark and Suburban sponsored Construction event on Monday, October 2nd. This key, creative team building event helps to fill the food banks before the holiday season. Please contact Donna to participate this year. Joe Sarra has been volenteered for the Special Saturday Tours Committee to assist with the planning of the great events scheduled for this fall. Bill will serve as our liaison to the AIA-NJ AIA150 committee. Martin Sarras, AIA, our AIA150 Champion on the committee, has designed a very exciting program for elementary school children to learn more about architecture and the AIA scheduled for April 2007 and we need more members to volunteer to make presentations at the school of their choice. Please contact Bill or Martin for more information and to sign up. I hope we have a great turn out at all of the tours, meetings and events planned for this fall. Check the calendar in this edition and year end for more information on a program that interest you.

Stacey Buhle Klessich, AIA

What and How, we see...

We are visual creatures. It is this characteristic which has led most of us to our avocation - Architecture. Images are often more vivid to us than other stories. When we travel or move about our own environment, certain things we see affect us in deep and lasting ways. It may be a building, a view, people, or anything meaningful of which you captured an image and want others to see as well.

Here are some of the images submitted by your fellow members.

Fay William Logan, AIA, Editor

Members share images and thoughts that are important to them.
Eugene V. Vinocur, Architect – A family trip to Spain with John and Linda Vinocur recently featured in Architectural Digest, “The last time any of us was in the same room, architectural phones had trunks during the 1930s. Paul C. Benay, AIA LAN Architects & Engineers, PC

Tom Kieren agrees with Santiago Calatrava that this art museum flies in the face of reality.

SNS Architects & Engineers, PC

I became interested in Christo’s work after I saw a display at the National Gallery during an AIA Grassroots convention. When I heard about the Central Park project, I was thrilled. Crisp, clear February weather, miles of walking, carnival atmosphere, a big lunch at Fiorello’s made for a memorable day.

John J Gilchrist AIA
John J Gilchrist Architect PC

Artist Dale Chihuly’s spectacular hand-blown glass sculptures at The New York Botanical Garden is a fabulous exhibition where art meets nature in a dramatic setting of organic shapes in brilliant colors. These waterlilies and colorful lotus are in the exterior courtyard and appear to ascend from the reflecting pools.

Joyce Raspa-Gore, AIA, Esq.
Licensed Architect and Attorney at Law

The architecture of this LA gas station exemplifies the spirit of its time.

Bobby Kaplan, AIA
Kaplan & Associates

Note: All background images are of the Disney Concert Hall and were taken by Bobby Kaplan in Los Angeles, CA.

Olive Branch, FL: Seen from a low angle, it was the “landscape” after the eye had assimilated the architectural forms that were changing shape on the front of the other and the architectural phones had trunks during the 1930s. Paul C. Benay, AIA LAN Architects & Engineers, PC

The July ALNNJ Membership meeting was held at the Clifton Library, sponsored by the Architects League of Northern New Jersey. The program featured the topic of “Building a Winning Architectural Firm.” The program was excellent with much interchange from the audience.

The Awards and Scholarship Dinner was held at the bergen county community college, technology center. Among the highlights of the event was the presentation of the ALNNJ’s 2006 Honor Awards for Visionary Building Design. The awards were presented to architects and their firms for outstanding design, innovation, and excellence in architecture. The event also featured a silent auction to benefit the ALNNJ Scholarship Fund.
